WET LOOK II

Ultra High Speed Floor Finish

WET LOOK II is specifically formulated to produce a brilliant, durable shine that enhances the time and labor saving advantages offered by today's high-speed buffing machine technology. Designed to be used in high traffic areas, it produces an extremely durable gloss which quickly responds to daily high-speed spray buffing or dry buffing techniques. Even when completely dry, floors have a deep, even shine that resembles that of a wet surface.

BENEFITS

- ▶ Excellent for high speed/propane buffing
- ▶ High gloss
- ▶ Excellent leveling
- ▶ Durable
- ▶ Superior coverage
- ▶ Resistant to black heel marks
- ▶ No initial buffing necessary

APPLICATIONS

- ▶ All resilient floors where high speed or ultra high speed buffing is desired

TECHNICAL DATA

- | | |
|------------------------|------------------------------|
| ▶ % nonvolatile | 22% minimum |
| ▶ Brookfield viscosity | 5 cps |
| ▶ Dilution | Ready to use |
| ▶ DOT | MSDS Document |
| ▶ EPA | Regulated |
| ▶ Odor | Mild |
| ▶ pH | 8.0 - 9.0 |
| ▶ Physical appearance | Opaque liquid |
| ▶ Pounds / gallon | 8.6 |
| ▶ Coverage | 2,500-2,800 Sq.ft per gallon |
