## **COLD WATER WASHING OPERATING INSTRUCTIONS**

1. Turn on water supply if applicable.
2. Move pump switch to "ON" position.
3. Pull Trigger, if a steady stream of water at pressure does not flow from wand within a few seconds **IMMEDIATELY** turn switch to "OFF" position. Have a professional service tech correct the problem or contact your Rushing Enterprises technical support team for assistance.
4. When a steady stream of water at pressure flows from the wand, turn selector switch to "CHEMICAL" position.
5. Starting at the bottom of the vehicle and working your way to the top, apply chemical to the entire surface avoiding the cleaning solution from drying.
6. Turn selector switch to the "RINSE" position. Allow hose to clear of all chemicals.
7. Start at the top of the vehicle and working your way to the bottom, rinse the entire surface of the vehicle.

### **SHUTTING DOWN**

1. Move pump switch to "OFF" position.
2. Pull trigger to release pressure on the hose and wand.
3. Turn off water supply if applicable.

***Rushing Performance.....Clean EVERY TIME!***
